Shipments to VIBRATECH under T1 Transit and LADT Temporary Storage

LADT FACILITY CODE 0443CMDT VIBRATEC	CUSTOMS OFFICE TOULON LA SEYNE (France)	New Computerised Transit System (NCTS) CODE FR004430
---	--	--

Purpose of this notice

This notice is intended for customers, logistics departments, freight forwarders and customs brokers arranging the temporary shipment of equipment to VIBRATECH for inspection, verification, calibration or repair.

1. General Principle

Whenever temporary import customs formalities are required for the shipment of equipment into France, the equipment should be transported under a T1 Transit Document. This procedure allows VIBRATECH to complete the temporary import customs formalities through its authorized Temporary Storage Facility (LADT).

2. Shipment Requirements

- A T1 transit document must be issued by the carrier, freight forwarder or customs broker before dispatch.
- The T1 document should identify VIBRATECH's LADT facility code: 0443CMDT VIBRATEC.
- The competent customs office is TOULON LA SEYNE, with NCTS code FR004430.
- The original transit documentation must accompany the equipment and be presented upon delivery.
- The commercial invoice should clearly state that the shipment is temporary and is intended for inspection, verification, calibration or repair, as applicable.

IMPORTANT: Do not ship the equipment as a definitive export or permanent import when it is being sent temporarily for service.

3. Delivery Address and Receiving Hours

RECEIVING HOURS

Monday to Friday
09:00 a.m. to 05:00 p.m.
Continuous opening hours

4. Customs Formalities after Arrival

Once the equipment has been delivered to the VIBRATECH LADT facility, VIBRATECH will coordinate with its appointed customs broker, CMDT, to complete the remaining customs formalities.

APPOINTED CUSTOMS BROKER	FORMALITIES COORDINATED BY VIBRATECH
CMDT Zone Portuaire de Brégaillon No. 8 83500 La Seyne-sur-Mer France	- Discharge/closure of the T1 transit movement - Temporary import declaration in France - Customs follow-up during the service period - Export declaration for the return shipment

5. Service and Return Shipment

After completion of the requested inspection, verification, calibration or repair, VIBRATECH will coordinate the export customs formalities before the equipment is returned to the customer. Every effort will be made to meet the requested turnaround time, subject to technical findings, parts availability, transport arrangements and customs processing.

6. Responsibilities at a Glance

Customer / Shipper	Carrier / Customs Broker	VIBRATECH / CMDT
Provide accurate shipment and invoice information. Confirm that the shipment is temporary. Pack and identify the equipment correctly.	Issue the T1 transit document. Reference the LADT and NCTS codes. Deliver the goods and original documents to VIBRATECH.	Receive the shipment into the LADT. Coordinate temporary import formalities. Arrange export formalities for the return.

7. Documents Recommended with the Shipment

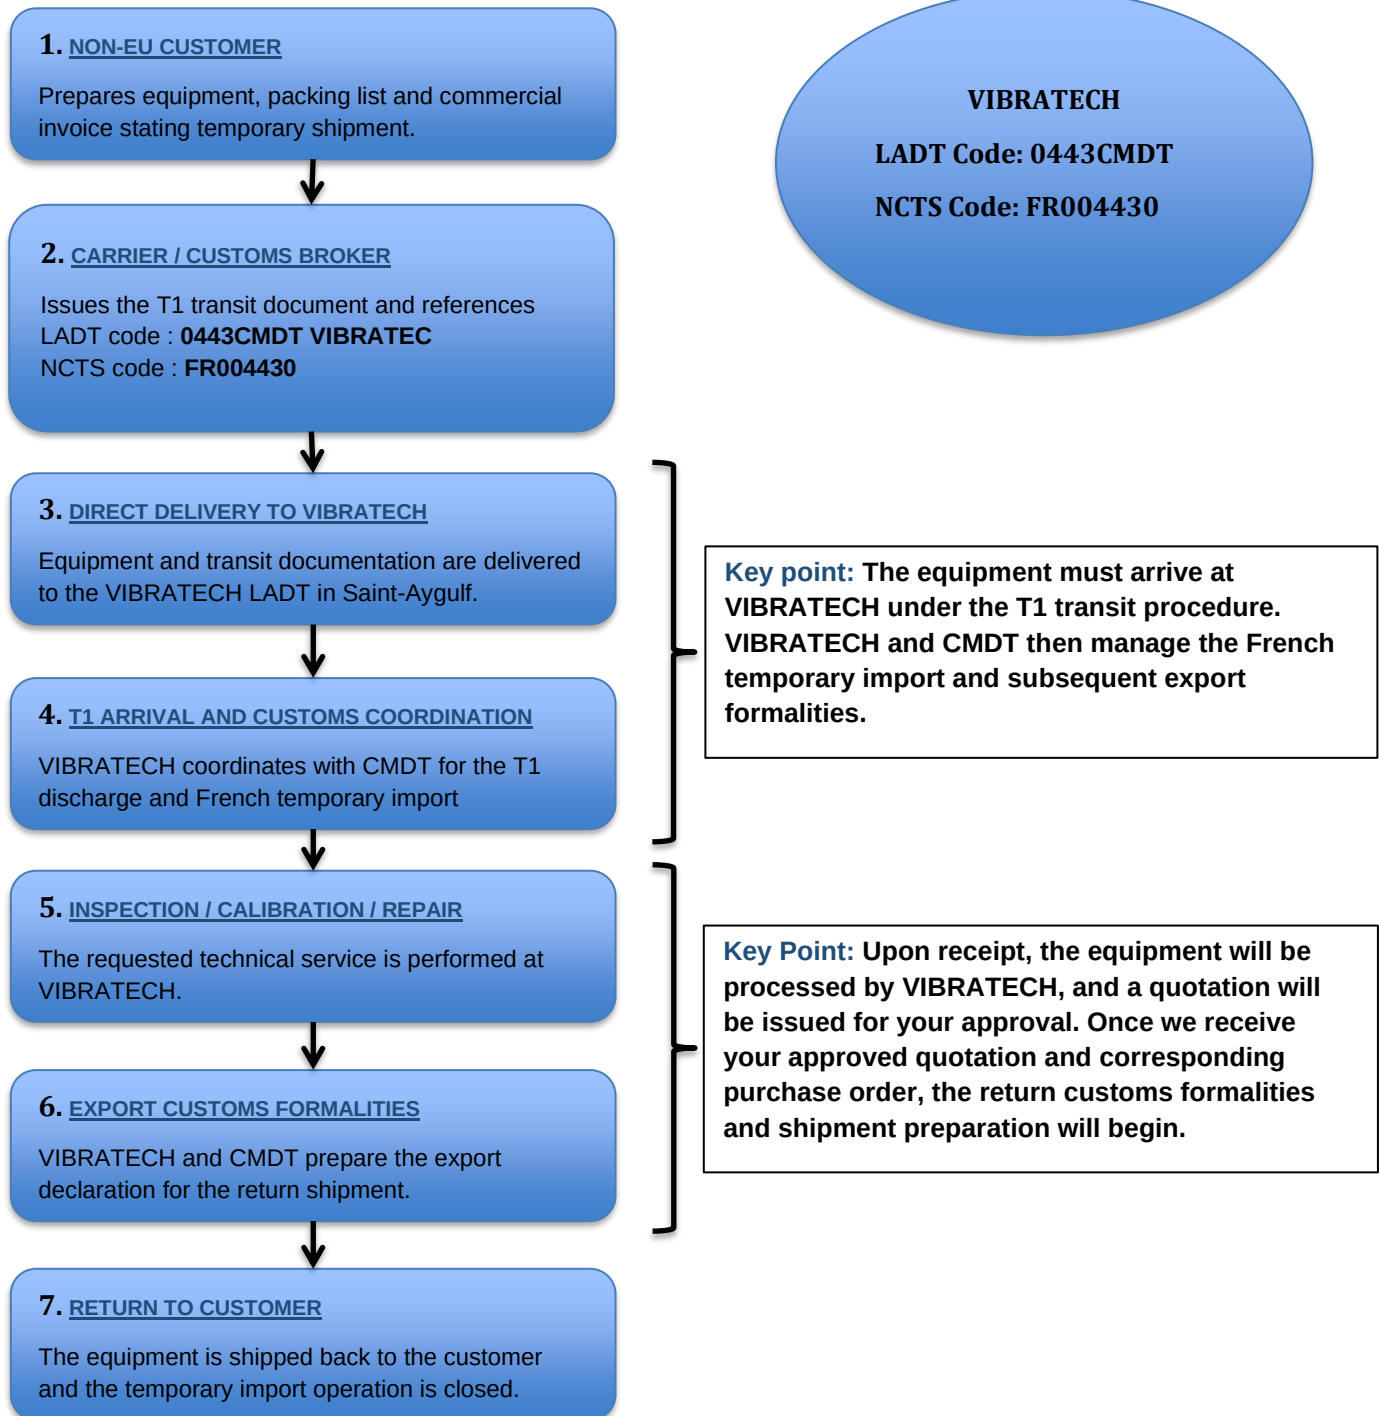

- T1 (or T2) transit document (original or carrier-controlled transit documentation, as applicable).
- Commercial invoice stating the temporary nature of the shipment and the reason for export.
- Packing list with part numbers, serial numbers, quantities and declared values.
- Copy of the VIBRATECH LADT authorization, where requested by the carrier or customs authorities.
- VIBRATECH quotation, service order or return authorization, where available.

8. Contact before Dispatch

Customers and freight forwarders are encouraged to contact VIBRATECH before dispatch if they have any questions regarding the procedure, the transit document or the required shipping information. This helps prevent delays, incorrect customs treatment and unnecessary duties or taxes.
